BLUE FORCE™

Smart Variable Pool Pump

- Wi-Fi-enabled smart pool pump with a free app for easy control. Quickly adjust speeds and flow, schedule on/off operation, and create custom pump scenes that coordinate seamlessly with other equipment. Built-in freeze protection helps safeguard your system year-round.
- Compatible with major pool automation systems. Connect directly with optional RS485 cable (sold separately).
- Energy Star and DOE compliant. May be eligible for local energy department rebates.
- Up to 80% more efficient than traditional single speed pumps, reducing energy costs.
- 2 year warranty with option to upgrade to 3- year full warranty with pump registration upon installation.
